

Credits and recognitions

This site is the result of work and guidance of many friends and colleagues who inspired me and undertook various responsibilities without which I could not have achieved these results. To name every one of these individuals will be too lengthy and is very unnecessary to thank good friends for the friendship they provided me. The main purpose for the list below is to reminisce the great time we had together and to appreciate the value of their friendship.

Mr. John Nourzad

The seminars' simplicity and ease are all because of him.

Miss. Kianoosh Taghizadeh Ansaari

Her sense of creativity and good taste is evident in every seminar.

Mr. Mohammad Ansaari

He designed every cartoon as an accurate depiction of the seminar's central point.

Web Graph

Initial efforts and ideas behind this site are from this office.

Mr. Ali Torabi

Actual construction of this site and its maintenance rests with him.
